Subject index

A

- Absorption and excretion, studies of sulfamethoxydiazine (Kaplan, Chew, and Weinstein), 307
- Acetylator phenotype, influence on effects of treating depression with phenelzine (Price Evans, Davison, and Pratt), 430
- Acetylcysteine, iatrogenic bronchospasm occurring during clinical trials of new mucolytic agent (Bernstein and Ausdenmoore) (Abst.), 672
- Acetylsalicylic acid, studies with. II. Psychopharmacologic and methodologic considerations (Krumholz, Sheppard, and Merlis), 359
- Acid, 5-azaorotic, inhibitor of biosynthesis of pyrimidines de novo (Granat et al.), 436
- ethacrynic, metabolic effects and site of action of (Ledingham and Bayliss), 474
- para-aminosalicylic, malabsorption and deficiency of vitamin B₁₂ caused by treatment with (Heinivaara and Palva) (Abst.), 789
- Acidosis, diabetic, secondary to steroid therapy (Blereau and Weingarten) (Abst.), 669
- Acute cholecystitis, mimicry by erythromycin estolate reactions (Fischer and Hoak) (Abst.), 788
- Adrenal function after topical steroid therapy (March, Rea, and Porter), 43
- Adrenergic blockade, ineffective treatment with (Daniell) (Abst.), 395
- Aerospace medicine, drugs in (Perry), 771
- Agranulocytosis, neutrophilic, during administration of penicillamine (Corcos et al.) (Abst.), 667
- Aldosterone and its antagonists (Ross), 65
- American drug index, 1965 (Wilson and Jones) (B. rev.), 405
- Aminomethane, tris (hydroxymethyl), effects on composition of extracellular fluid, skeletal muscle, and cardiac muscle (Talso and Cutilletta), 448
- Amphotericin B, anemia induced by (Brandriss et al.) (Abst.), 670
- Analgesic drugs, studies (Telford and Keats), 12
- Anemia, hemolytic, secondary to salicylazo-sulfapyridine (Gardner and Barga) (Abst.), 669
- induced by Amphotericin B (Brandriss et al.) (Abst.), 670
- megaloblastic, folates and (Johns and Bertino), 372
- Anesthesia, halothane, massive hepatic necrosis associated with (Chadwick and Jennings) (Abst.), 541
- hypoxia in, review (Bendixen and Laver), 510
- Anesthetic agents in man, local, intravenous toxicity (Foldes et al.), 328
- new dissociative, pharmacologic effects of CI-581 in man (Domino, Chodoff, and Corssen), 279
- Animals, laboratory, drug dosage in (Barnes and Eltherington) (B. rev.), 260
- Announcements, 261, 409, 687
- Anomalies, congenital, probably induced by cyclophosphamide (Greenberg and Tanaka) (Abst.), 393
- Antagonism of narcotic antagonist-induced respiratory depression (Telford and Keats), 12
- Antagonists, aldosterone and its (Ross), 65
- Antibacterial activity, studies of sulfamethoxydiazine (Kaplan, Chew, and Weinstein), 316
- Antibody, anti-DNA, association with lupuslike syndrome induced by procaine amide (Colman and Sturgill) (Abst.), 671
- Anticholinergic agents and phenothiazines, interaction between some (Gershon et al.), 740
- Anticoagulant therapy, intramural small bowel bleeding during (Kramer and Hill) (Abst.), 540

January-February, pp. 1-138; March-April, pp. 139-272; May-June, pp. 273-416; July-August, pp. 417-554; September-October, pp. 555-692; November-December, pp. 693-834.

- Anticoagulant-induced hemopericardium with tamponade, in absence of myocardial infarction or pericarditis (Fell et al.) (Abst.), 790
- Antidepressant drug therapy (Friend), 805
- Antidepressants—somewhat depressing scene (Hollister) (Edit.), 555
- Anti-DNA antibody, association with, lupuslike syndrome induced by procaine amide (Colman and Sturgill) (Abst.), 671
- Antihistaminics, tailoring dosage to suit patients (Harter), 553
- Antipyretic potency of aspirin and sodium salicylate, clinical comparison (Seed), 354
- Antitoxin (horse), comparison of 500,000 I.U. with 200,000 I.U. in treatment of tetanus (Lucas et al.), 592
- Antitussive agents, objective evaluation (Sevelius, Lester, and Colmore), 146
- Aromatic drugs and congenital cataracts (Harley, Farrar, and Dunlap) (Abst.), 393
- Arrhythmias, catecholamine-induced, following guanethidine, increased sensitivity of heart to (Muelheims et al.), 757
- Arsenic compounds, toxicity (Buchanan) (B. rev.), 406
- Arterial pressure, systemic, in schizophrenic patients, effects of chronic chlorpromazine administration on; relationship of body position to blood pressure (Korol et al.), 587
- Artery, renal, stenosis, hypertension and (Sheps et al.), 700
- Arthritis, rheumatoid, clinical trial of indomethacin in (Katz, Pearson, and Kennedy), 25
- Aspirin preparations, enteric-coated, how reliable? (Clark and Lasagna), 568
and sodium salicylate, clinical comparison of antipyretic potency (Seed), 354
- Aspirin-induced bronchial asthma, diagnostic problem (Salvaggio et al.) (Abst.), 544
- Asthma, bronchial, aspirin-induced, diagnostic problem (Salvaggio et al.) (Abst.), 544
- Atropine sulfate, hyoscine-N-butyl bromide and, comparison in man (Brownlee, Wilson, and Birmingham), 177
- 5-Azaorotic acid, inhibitor of biosynthesis of pyrimidines de novo (Granat et al.), 436
- Barbiturate intoxication, forced diuresis in management (Strickler) (Edit.), 693
- Barium enema, lethal effects of tannic acid in (McAlister et al.) (Abst.), 108
enemas containing tannic acid, fatal liver damage after (Lucke, Hodge, and Patt) (Abst.), 396
- Benzothiadiazines, diabetogenic action (Samann, Dollery, and Fraser) (Abst.), 398
- Biosynthesis of pyrimidines de novo, 5-azaorotic acid, inhibitor of (Granat et al.), 436
- Bishydroxycoumarin (Dicumarol) and diphenylhydantoin (Dilantin), lowering effects of phenobarbital on plasma levels of (Cucinell et al.), 420
- Bleeding, intramural small bowel, during anticoagulant therapy (Kramer and Hill) (Abst.), 540
- Blood levels, thioridazine, in patients receiving different oral forms (Mellinger, Mellinger, and Smith), 486
pressure, relationship of body position to; effects of chronic chlorpromazine administration on systemic arterial pressure in schizophrenic patients (Korol et al.), 587
volume, body exchangeable sodium, and creatinine clearance, fluid retention produced by guanethidine, changes in (Smith) (Abst.), 675
- Body position, relationship to blood pressure; effects of chronic chlorpromazine administration on systemic arterial pressure in schizophrenic patients (Korol et al.), 587
- Book reviews, 125, 259, 405, 551, 684, 802
- Books received, 128, 260, 408, 551, 685, 804
- Breast cancer, metastatic, comparison of cyclophosphamide and 5-fluorouracil in treatment of patients with (Talley et al.), 740
- Bronchial asthma, aspirin-induced, diagnostic problem (Salvaggio et al.) (Abst.), 544
- Bronchospasm, iatrogenic, occurring during clinical trials of new mucolytic agent, acetylcysteine (Bernstein and Ausdenmoore) (Abst.), 672
- Busulfan (Myleran), porphyria cutanea tarda associated with chronic granulocytic leukemia treated with (Kyle and Dameshek) (Abst.), 672

B

- Bacteria, penicillin-resistant, in mouths and throats of children receiving continuous prophylaxis against rheumatic fever (Naiman and Barrow) (Abst.), 543

C

- Cancer, advanced, thalidomide (N-phthaloyl-glutamimide) in treatment (Olson et al.), 292

- Cancer—Cont'd
metastatic breast, comparison of cyclophosphamide and 5-fluorouracil in treatment of patients with (Talley et al.), 740
patients with, clinical experiences with thalidomide in (Grabstald and Golbey), 298
- Cardiac muscle, extracellular fluid, skeletal muscle, and, effects of tris (hydroxymethyl) aminomethane on composition of (Talso and Cutilletta), 488
- Cardiovascular effects of rapid intravenous injection of synthetic oxytocin during elective cesarean section (Andersen et al.), 345
- Cataracts, congenital, aromatic drugs and (Harley, Farrar, and Dunlap) (Abst.), 393
- Catecholamine-induced arrhythmias following guanethidine, increased sensitivity of heart to (Muelheims et al.), 757
- Catecholamines, urinary, ethanol and, in man (Anton), 462
- Central nervous system, pharmacology (Bradley) (B. rev.), 407
- Cesarean section, elective, cardiovascular effects of rapid intravenous injection of synthetic oxytocin during (Andersen et al.), 345
- Chemical pharmacology, introduction to (Barlow) (B. rev.), 406
- Chemistry and physics, handbook (Weast, Selby, and Hodgman) (B. rev.), 126
- Chemotherapeutic agents, new, hydroxyurea (NSC-32065), feasibility of using randomization schemes early in clinical trials (Carbone et al.), 17
- Chloramphenicol, controlled double-blind study of hematologic toxicity of (Scott et al.) (Abst.), 789
therapy, role in development of optic neuritis in cystic fibrosis of pancreas (Lietman, Di Sant'Agnese, and Long) (Abst.), 669
- Chlordiazepoxide, diazepam, and placebo, comparative effect in human subjects on mental and physical performance (Hughes, Forney, and Richards), 139
- (β -chloroethyl)amine hydrochloride (HN2), methyl bis, and its ethylenimonium derivative, protection against, with sodium thiosulfate (Bonadonna and Karnofsky), 50
- Chlorophenoxyisobutyrate (CPIB), ethyl, effects in juvenile-onset diabetes mellitus (Danowski et al.), 716
- Chloroquine neuromyopathy (Begg and Simpson) (Abst.), 541
- Chlorpromazine, chronic, administration, effects on systemic arterial pressure in schizophrenic patients; relationship of body position to blood pressure (Korol et al.), 587
some pharmacological and psychological effects in man (Sletten et al.), 575
new and unusual reaction to (Zelickson and Zeller) (Abst.), 546
- Cholecystitis, acute, mimicry by erythromycin estolate reactions (Fischer and Hoak) (Abst.), 788
- Cholecystography, oral, acute renal failure following (Harrow and Sloane) (Abst.), 670
- Chronic chlorpromazine administration, some pharmacological and psychological effects in man (Sletten et al.), 575
- CI-581, new dissociative anesthetic, pharmacologic effects in man (Domino, Chodoff, and Corssen), 279
- Clinical comparison of antipyretic potency of aspirin and sodium salicylate (Seed), 354
experiences with thalidomide in patients with cancer (Grabstald and Golbey), 298
infection in newborn infants, prophylactic methicillin and oxacillin in prevention of staphylococcal colonization and subsequent (Shaw, Riley, and Bracken), 492
studies of dichloromethotrexate (NSC-29630) (Frei et al.), 160
trial of indomethacin in rheumatoid arthritis (Katz, Pearson, and Kennedy), 25
trials of new chemotherapeutic agents: hydroxyurea (NSC-32065), feasibility of using randomization schemes early in (Carbone et al.), 17
- Colchicine in patient with gout, vascular purpura due to (Sinaly) (Abst.), 107
- Collagenase therapy, pancreatic, for severe, progressive systemic sclerosis (Nellas, Crawford, and Scherbel), 367
- Congenital anomalies probably induced by cyclophosphamide (Greenberg and Tanaka) (Abst.), 393
cataracts, aromatic drugs and (Harley, Farrar, and Dunlap) (Abst.), 393
- Convulsions, psychosis and, following withdrawal from ethchlorvynol (Blumenthal and Reinhart) (Abst.), 547
- Correspondence, 129
- Corticosteroid therapy, topical, some quantitative factors in (Scholtz and Nelson), 498
- Creatinine clearance, body exchangeable sodium, and blood volume, fluid retention produced by guanethidine, changes in (Smith) (Abst.), 675

- Cyclophosphamide, congenital anomalies probably induced by (Greenberg and Tanaka) (Abst.), 393
and 5-fluorouracil in treatment of patients with metastatic breast cancer, comparison of (Talley et al.), 740
Cystic fibrosis of pancreas, optic neuritis in, role of chloramphenicol therapy in (Lietman, Di Sant'Agnese, and Long) (Abst.), 669

D

- Deficiency and malabsorption of vitamin B₁₂ caused by treatment with para-aminosalicylic acid (Heinivaara and Palva) (Abst.), 789
Delayed-action medication, salicylates, studies (Hollister and Kanter), 5
Demethylchlortetracycline therapy in acute gonococcal urethritis (Sokoloff), 350
Depression, respiratory, narcotic antagonist-induced, antagonism (Telford and Keats), 12
treatment with phenelzine, influence of acetylator phenotype on effects of (Price Evans, Davison, and Pratt), 430
Dextran, low molecular weight, clinical status (Couch), 656
Diabetes mellitus, juvenile-onset, ethyl chlorophenoxyisobutyrate (CPIB) effects in (Danowski et al.), 716
worsened or precipitated by thiazide diuretics, serum insulin-like activity in (Samann, Dollery, and Fraser) (Abst.), 398
Diabetic acidosis secondary to steroid therapy (Blereau and Weingarten) (Abst.), 669
Diabetogenic action of benzothiadiazines (Samann, Dollery, and Fraser) (Abst.), 398
Dialysis, passage of THAM across peritoneum during (Nahas et al.), 560
Diazepam, chlordiazepoxide, and placebo, comparative effect in human subjects on mental and physical performance (Hughes, Forney, and Richards), 139
Dichloromethotrexate (NSC-29630), clinical studies (Frei et al.), 160
Dichloromethotrexate-Cl³⁶ in man, physiologic disposition (Davidson and Oliverio), 321
Dicumarol and Dilantin, lowering effect of phenobarbital on plasma levels of (Cucinell et al.), 420
poisoning masquerading as propylthiouracil sensitivity, hemorrhagic syndrome due to (Breckenridge and Kellermeyer) (Abst.), 110
Dihydrofolate reductase, erythrocyte and leukocyte, induction by methotrexate (Bertino et al.), 763
L-Dihydroxyphenylalanine, action in patients receiving nialamide (Friend, Bell, and Kline), 362
Dilantin, Dicumarol and, lowering effect of phenobarbital on plasma levels of (Cucinell et al.), 420
Diphenylhydantoin (Dilantin), bishydroxycoumarin (Dicumarol) and, lowering effect of phenobarbital on plasma levels of (Cucinell et al.), 420
Disease, renal, edema due to, on use of natriuretic drugs in treatment (Kessler) (Edit.), 1
renal, headache powders and (Fordham and Huffines) (Abst.), 398
Diseases of medical progress, present status (Moser), 107, 393, 540, 667, 788
Disinfection and sterilization, review (Rubbo and Gardner) (B. rev.), 802
Diuresis, forced, in management of barbiturate intoxication (Strickler) (Edit.), 693
postassium, induced by edathamil disodium, clinical precaution (Batchelor, McCall, and Mosher) (Abst.), 547
Diuretics, thiazide, serum insulin-like activity in diabetes worsened or precipitated by (Samann, Dollery, and Fraser) (Abst.), 398
n-Lysergic acid diethylamide (LSD): review of present status (Hoffer), 183
DNA the "secret of life"? (Commoner) (Edit.), 273
Droperidol, fentanyl, and morphine, comparison (Gorodetzky and Martin), 731
Drug circular No. 3, investigational, 117
dosage in laboratory animals (Barnes and Eltherington) (B. rev.), 260
encyclopedia and therapeutic index, modern (Goodhart and Zeichner) (B. rev.), 406
index, 1965, American (Wilson and Jones) (B. rev.), 405
interactions in man (Cucinell et al.), 420
letter, 120, 256, 403, 549, 666
research, advances in (Harper and Simmonds) (B. rev.), 125
therapy, antidepressant (Friend), 805
Drugs in aerospace medicine (Perry), 771
analgesic, studies (Telford and Keats), 12
aromatic, and congenital cataracts (Harley, Farrar, and Dunlap) (Abst.), 393
natriuretic, use in treatment of edema due to renal disease (Kessler) (Edit.), 1
thiazide, antepartum administration of neonatal thrombocytopenia associated with (Rodriguez, Leikin, and Heller) (Abst.), 109

Drugs—Cont'd

- today's (B. rev.), 802
- used in treatment of glaucoma (Leopold and Keates), 130, 262
- Dysfunction, sexual, associated with thioridazine hydrochloride (Shader) (Abst.), 546

E

- Edathamil disodium, potassium diuresis induced by, clinical precaution (Batchelor, McCall, and Mosher) (Abst.), 547
- Edema due to renal disease, on use of natriuretic drugs in treatment (Kessler) (Edit.), 1
- Electroencephalographic study of effects of meprobamate on human sleep (Freemon, Agnew, and Williams), 172
- Emulsion therapy of pollenosis, untoward reactions to (Applebaum) (Abst.), 396
- Encephalopathy, isoniazid-induced (Adams and White) (Abst.), 674
- Enteric-coated aspirin preparations, how reliable are? (Clark and Lasagna), 568
- Enzymes, proteolytic, in clinical medicine (Colman), 598
- Erythrocyte and leukocyte dihydrofolate reductase, induction by methotrexate (Bertino et al.), 763
- Erythromycin estolate reactions, mimicry of acute cholecystitis by (Fischer and Hoak), (Abst.), 788
- Ethacrynic acid, metabolic effects and site of action (Ledingham and Bayliss), 474
- Ethanol and urinary catecholamines in man (Anton), 462
- Ethchlorvynol, psychosis and convulsions following withdrawal from (Blumenthal and Reinhart) (Abst.), 547
- Ethyl chlorophenoxyisobutyrate (CPIB) effects in juvenile-onset diabetes mellitus (Danowski et al.), 716
- Ethylenimonium derivative of methyl bis (β -chloroethyl)amine hydrochloride (HN2), protection studies with sodium thiosulfate against (Bonadonna and Karnofsky), 50
- Excretion, absorption and, studies of sulfamethoxydiazine (Chew, Kaplan, and Weinstein), 307
- Extracellular fluid, skeletal muscle, and cardiac muscle, effects of tris (hydroxymethyl) aminomethane on composition of (Talsó and Cutilletta), 448

F

- Federal Register, excerpts from, 112, 400, 677, 794
- Fentanyl, droperidol, and morphine, comparison (Gorodetzky and Martin), 731

- Fetal manifestations, meclizine and (Smithells and Chinn) (Abst.), 394
- Fluid retention complicating treatment with guanethidine, clinical features of (Smith) (Abst.), 675
 - produced by guanethidine, changes in body exchangeable sodium, blood volume, and creatinine clearance (Smith) (Abst.), 675
- 5-Fluorouracil and cyclophosphamide in treatment of patients with metastatic breast cancer, comparison of (Talley et al.), 740
- Folates, and megaloblastic anemia (Johns and Bertino), 372
- Fractures, multiple, associated with long-term sodium heparin therapy (Jaffe and Willis) (Abst.), 789
- Furadantin (nitrofurantoin) therapy, polyneuritis after (Roelsen) (Abst.), 546

G

- Glaucoma, drugs used in treatment (Leopold and Keates), 130, 262
- Glucose intolerance, thiazide-induced, treated with potassium (Rapoport and Hurd) (Abst.), 543
- Gonococcal urethritis, acute, demethylchlortetracycline therapy in (Sokoloff), 350
- Gout, patient with vascular purpura due to colchicine in (Sinaly) (Abst.), 107
- Guanethidine, clinical features of fluid retention complicating treatment with (Smith) (Abst.), 675
 - increased sensitivity of heart to catecholamine-induced arrhythmias following (Muelheims et al.), 757
- Gynecomastia, spironolactone therapy and (Clark) (Abst.), 789

H

- Halothane anesthesia, massive hepatic necrosis associated with (Chadwick and Jennings) (Abst.), 541
 - and liver dysfunction (Rosen, Bowen, and Campbell) (Abst.), 674
- Headache, migraine, termination by new anti-inflammatory vasoconstrictor agent (Sicuteri, Michelacci, and Anselmi), 336
 - powders and renal disease (Fordham and Huffines) (Abst.), 398
- Heart, increased sensitivity of, to catecholamine-induced arrhythmias following guanethidine (Muelheims et al.), 757
- Hematologic toxicity of chloramphenicol, controlled double-blind study of (Scott et al.) (Abst.), 789

- Hemolytic anemia secondary to salicylazosulfa-
pyridine (Gardner and Barga)
(Abst.), 669
- Hemopericardium, anticoagulant-induced, with
tamponade, in absence of myocardial
infarction or pericarditis (Fell et al.)
(Abst.), 790
- Hemorrhagic syndrome due to Dicumarol pois-
oning masquerading as propylthioura-
cil sensitivity (Breckenridge and Kel-
lermeyer) (Abst.), 110
- Heparin administration, prolonged, selective hypo-
aldosteronism after (Goetz) (Abst.),
542
- osteoporosis (Griffith et al.) (Abst.), 790
- sodium, therapy, multiple fractures associated
with long-term (Jaffe and Willis)
(Abst.), 789
- Hepatic (*see also* Liver)
- necrosis, massive, associated with halothane
anesthesia (Chadwick and Jennings)
(Abst.), 541
- reactions to tetracycline (Dowling and Lepper)
(Abst.), 109
- Hormones, actions on molecular process (Litwack
and Kritchevsky) (B. rev.), 259
- thyroid synthetic, in myxedema, physiologic
combinations of (Wool and Selen-
kow), 710
- Hydroxymethyl, tris, aminomethane effects on
composition of extracellular fluid,
skeletal muscle, and cardiac muscle
(Talso and Cutilletta), 448
- Hydroxyurea (NSC-32065), feasibility of using
randomization schemes early in clin-
ical trials of new chemotherapeutic
agents (Carbone et al.), 17
- Hyoscine-*N*-butyl bromide and atropine sulfate,
comparison in man (Brownlee, Wil-
son, and Birmingham), 177
- Hypertension, acute, pargyline, cheese, and
(Glazener et al.) (Abst.), 397
- and renal artery stenosis (Sheps et al.), 700
- Hyperthyroidism, treatment with radioactive io-
dine, acute leukemia after (McBride)
(Abst.), 672
- Hypoadosteronism, selective, after prolonged hep-
arin administration (Goetz) (Abst.),
542
- Hypoprothrombinemia as complication of propyl-
thiouracil (Gilbert) (Abst.), 668
- Hypoxia in anesthesia, review (Bendixen and
Laver), 510

I

- Iatrogenic bronchospasm occurring during clin-
ical trials of new mucolytic agent,
acetylcysteine (Bernstein and Aus-
denmoore) (Abst.), 672

- Indomethacin in rheumatoid arthritis, clinical
trial (Katz, Pearson, and Kennedy),
25
- Infection, clinical, in newborn infants, prophylac-
tic methicillin and oxacillin in pre-
vention of staphylococcal colonization
and subsequent (Shaw, Riley, and
Bracken), 492
- Insulin-like activity, serum, in diabetes worsened
or precipitated by thiazide diuretics
(Samann, Dollery, and Fraser)
(Abst.), 398
- Intoxication, barbiturate, forced diuresis in man-
agement (Strickler) (Edit.), 693
- Intramural small bowel bleeding during anti-
coagulant therapy (Kramer and Hill)
(Abst.), 540
- Intravenous injection, rapid, of synthetic oxy-
tocin during elective cesarean section,
cardiovascular effects (Andersen), 345
- toxicity of local anesthetic agents in man
(Foldes et al.), 328
- Iodine, radioactive, acute leukemia after treat-
ment for hyperthyroidism with (Mc-
Bride) (Abst.), 672
- Isoniazid-induced encephalopathy (Adams and
White) (Abst.), 674

J

- Jectofer injections, black urine after (Boyle et
al.) (Abst.), 394
- Juvenile-onset diabetes mellitus, ethyl chloro-
phenoxyisobutyrate (CPIB) effects in
(Danowski et al.), 716

L

- Lepra reactions, thalidomide in treatment (Shes-
kin), 303
- Leriche syndrome, vasospastic reaction to methy-
sergide maleate simulating (Daniell)
(Abst.), 395
- Lethal effects of tannic acid in barium enema
(McAlister et al.) (Abst.), 108
- Leukemia, acute, after radioactive iodine treat-
ment of hyperthyroidism (McBride)
(Abst.), 672
- treatment with methylglyoxal-bis-guanylylhy-
drazone (methyl GAG), (Levin et
al.), 31
- chronic granulocytic, treated with busulfan
(Myleran), porphyria cutanea tarda
associated with (Kyle and Dame-
shek) (Abst.), 672
- phenylbutazone therapy associated with (Chal-
mars and McCarthy) (Abst.), 545
- Leukocyte and erythrocyte dihydrofolate reduc-
tase, induction by methotrexate (Ber-
tino et al.), 763

- Liver (*see also* Hepatic)
 damage, fatal, after barium enemas containing tannic acid (Lucke, Hodge, and Patt) (Abst.), 396
 disease, fatal, during pregnancy associated with tetracycline therapy (Horwitz and Marymont) (Abst.), 673
 dysfunction, halothane and (Rosen, Bowen, and Campbell) (Abst.), 674
 injury associated with tranlycypromine therapy (Brandt and Hoffbauer) (Abst.), 397
 Local anesthetic agents in man, intravenous toxicity (Foldes et al.), 328
 LSD, *D*-lysergic acid diethylamide: review of its present status (Hoffer), 183
 Lupuslike syndrome induced by procaine amide, association with anti-DNA antibody (Colman and Sturgill) (Abst.), 671

M

- Malabsorption and deficiency of vitamin B₁₂ caused by treatment with para-aminosalicylic acid (Heinivaara and Palva) (Abst.), 789
 Manifestations, systemic after skin test with penicilloyl-polylysine (Ettinger and Kaye) (Abst.), 544
 Mathematical tables, handbook (Weast, Selby, and Hodgman) (B. rev.), 126
 Meclizine and focal manifestations (Smithells and Chinn) (Abst.), 394
 Medication, delayed-action, salicylates, studies (Hollister and Kanter), 5
 Megaloblastic anemia, folates and (Johns and Bertino), 372
 Mental and physical performance, comparative effect in human subjects of chlorthalidazine, diazepam, and placebo on (Hughes, Forney, and Richards), 139
 Meperidine and morphine, respiratory sensitivity of newborn infant to (Way, Costley, and Way), 454
 Meprobamate, electroencephalographic study of effects on human sleep (Freeman, Agnew, and Williams), 172
 Mercury and its compounds, toxicity (Bidstrup) (B. rev.), 406
 Metabolic effects and site of action of ethacrynic acid (Ledingham and Bayliss), 474
 Methicillin and oxacillin, prophylactic, in prevention of staphylococcal colonization and subsequent clinical infection in newborn infants (Shaw, Riley, and Bracken), 492
 Methodologic considerations, psychopharmacologic and, studies with acetylsalicylic acid (Krumholz, Sheppard, and Merlis), 359
 Methotrexate, induction of leukocyte and erythrocyte dihydrofolate reductase by (Bertino et al.), 763
 Methyl bis (β -chloroethyl)amine hydrochloride (HN2) and its ethylenimium derivative, protection studies with sodium thiosulfate against (Bonadonna and Karnofsky), 50
 Methyl GAG, methylglyoxal-bis-guanyldrazone, treatment of acute leukemia with (Levin et al.), 31
 Methylglyoxal-bis-guanyldrazone (methyl GAG), treatment of acute leukemia with (Levin et al.), 31
 Methysergide maleate simulating Leriche syndrome, vasospastic reaction to (Daniell) (Abst.), 395
 Migraine headache, termination by new anti-inflammatory vasoconstrictor agent (Sicuteri, Michelacci, and Anselmi), 336
 Molecular pharmacology, introduction to (Holland, Klein, and Briggs) (B. rev.), 551
 processes, actions of hormones on (Litwack and Kritchevsky) (B. rev.), 259
 Monoamine oxidase inhibiting reactions simulating pheochromocytoma (Plass) (Abst.), 673
 inhibitor, Ro5-1025, short-acting (Feldstein and Freeman), 470
 Morphine, fentanyl, and droperidol, comparison (Gorodetzky and Martin), 731
 meperidine and, respiratory sensitivity of newborn infant to (Way, Costley, and Way), 454
 Mouths and throats of children receiving continuous prophylaxis against rheumatic fever, penicillin-resistant bacteria in (Naiman and Barrow) (Abst.), 543
 Mucolytic agent, new, acetylcysteine, iatrogenic bronchospasm occurring during clinical trials of (Bernstein and Ausdenmoore) (Abst.), 672
 Muscle, cardiac, extracellular fluid, skeletal muscle and, effects of tris (hydroxymethyl) aminomethane on composition of (Talso and Cutilletta), 448
 skeletal, cardiac muscle, extracellular fluid and, effects of tris (hydroxymethyl) aminomethane on composition of (Talso and Cutilletta), 448
 smooth, pharmacology of (Bülbring) (B. rev.), 684
 Myleran, porphyria cutanea tarda associated with chronic granulocytic leukemia treated with (Kyle and Dameshek) (Abst.), 672

- Myocardial infarction or pericarditis, anticoagulant-induced hemopericardium with tamponade, in the absence of (Fell et al.) (Abst.), 790
- Myxedema, physiologic combinations of synthetic thyroid hormones in (Wool and Selenkow), 710

N

- Names, new U.S., 111, 258, 399, 676, 792
- Narcotic antagonist-induced respiratory depression (Telford and Keats), 12
- Natriuretic drugs, use in treatment of edema due to renal disease (Kessler) (Edit.), 1
- Necrosis, massive hepatic, associated with halothane anesthesia (Chadwick and Jennings) (Abst.), 541
- Neonatal thrombocytopenia associated with antepartum administration of thiazide drugs (Rodriguez, Leikin, and Heller) (Abst.), 109
- Neuritis, optic, in cystic fibrosis of pancreas, role of chloramphenicol therapy (Lietman, Di Sant' Agnese, and Long) (Abst.), 669
- Neuromyopathy, chloroquine (Begg and Simpson) (Abst.), 541
- Neutrophilic agranulocytosis during administration of penicillamine (Corcos et al.) (Abst.), 667
- Newborn infant, respiratory sensitivity of, to meperidine and morphine (Way, Costley, and Way), 454
- infants, prophylactic methicillin and oxacillin in prevention of staphylococcal colonization and subsequent clinical infection in (Shaw, Riley, and Bracken), 492
- Nialamide, action of L-dihydroxyphenylalanine in patients receiving (Friend, Bell, and Kline), 362
- Nitrofurantoin (Furadantin) therapy, polyneuritis after (Roelsen) (Abst.), 546
- peripheral polyneuropathy caused by (Rubenstein) (Abst.), 547
- pleuropulmonary reaction to (Robinson) (Abst.), 667
- NSC-29630, dichloromethotrexate, clinical studies (Frei et al.), 160

O

- One drug—one name (Friend), 689
- Optic neuritis in cystic fibrosis of pancreas, role of chloramphenicol therapy (Lietman, Di Sant' Agnese, and Long) (Abst.), 669

- Osteoporosis, heparin (Griffith et al.) (Abst.), 790
- Oxacillin, methicillin and, prophylactic, in prevention of staphylococcal colonization and subsequent clinical infection in newborn infants (Shaw, Riley, and Bracken), 492
- Oxytocin, synthetic, during elective cesarean section, cardiovascular effects of rapid intravenous injection (Andersen et al.), 345

P

- Pancreas, optic neuritis in cystic fibrosis of, role of chloramphenicol therapy (Lietman, Di Sant' Agnese, and Long) (Abst.), 669
- Pancreatic collagenase therapy for severe, progressive systemic sclerosis (Nellas, Crawford, and Scherbel), 367
- Para-aminosalicylic acid, malabsorption and deficiency of vitamin B₁₂ caused by treatment with (Heinivaara and Palva) (Abst.), 789
- Pargyline, cheese, and acute hypertension (Glazener et al.) (Abst.), 397
- Passage of THAM across peritoneum during dialysis (Nahas et al.), 560
- Penicillamine, neutrophilic agranulocytosis during administration of (Corcos et al.) (Abst.), 667
- Penicillin-resistant bacteria in mouths and throats of children receiving continuous prophylaxis against rheumatic fever (Naiman and Barrow) (Abst.), 543
- Penicilloyl-polylysine, systemic manifestations after skin test with (Ettinger and Kaye) (Abst.), 544
- Pentazocine, respiratory and subjective effects (Bellville and Green), 152
- Pericarditis, or myocardial infarction, anticoagulant-induced hemopericardium with tamponade, in absence of (Fell et al.) (Abst.), 790
- Peripheral polyneuropathy caused by nitrofurantoin (Rubenstein) (Abst.), 547
- Peritoneum, passage of THAM across, during dialysis (Nahas et al.), 560
- Pharmacological effects of CI-581, new dissociative anesthetic, in man (Domino, Chodoff, and Corsen), 279
- and psychological effects in man of chronic chlorpromazine administration (Sletten et al.), 575
- Pharmacology, advances in (Garattini and Shore) (B. rev.), 407
- of central nervous system (Bradley) (B. rev.), 407

Pharmacology—Cont'd

- chemical, introduction to (Barlow) (B. rev.), 406
- molecular, introduction to (Holland, Klein, and Briggs) (B. rev.), 551
- of smooth muscle (Bülbring) (B. rev.), 684
- screening methods in (Turner) (B. rev.), 685
- Phenelzine, treatment of depression with, influence of acetylator phenotype on effects of (Price Evans, Davison, and Pratt), 430
- Phenobarbital, lowering effect on plasma levels of bishydroxycoumarin (Dicumarol) and diphenylhydantoin (Dilantin) (Cucinell et al.), 420
- Phenothiazines and anticholinergic agents, interaction between some (Gershon et al.), 740
- in high and prolonged dosage, pigmentation due to (Zantanovi) (Abst.), 545
- Phenotype, acetylator, influence on effects of treating depression with phenelzine (Price Evans, Davison, and Pratt), 430
- Phenylbutazone, combined effect of sodium warfarin and (Eisen) (Abst.), 668
- therapy associated with leukemia (Chalmers and McCarthy) (Abst.), 545
- Pheochromocytoma, monoamine oxidase inhibiting reactions simulating (Plass) (Abst.), 673
- n-Phthaloylglutamide, thalidomide, in treatment of advanced cancer (Olson et al.), 292
- Physics, chemistry and, handbook (Weast, Selby, and Hodgman) (B. rev.), 126
- Physiologic combinations of synthetic thyroid hormones in myxedema (Wool and Selenkow), 710
- disposition of dichloromethotrexate-Cl³⁶ in man (Davidson and Oliverio), 321
- Pigmentation due to phenothiazines in high and prolonged dosage (Zantanovi) (Abst.), 545
- Placebo, chlordiazepoxide, diazepam, and comparative effect in human subjects on mental and physical performance (Hughes, Forney, and Richards), 139
- Pleuropulmonary reaction to nitrofurantoin (Robinson) (Abst.), 667
- Poisoning, Dicumarol, masquerading as propylthiouracil sensitivity, hemorrhagic syndrome due to (Breckenridge and Kellermeyer) (Abst.), 110
- Pollenosis, untoward reactions to emulsion therapy (Applebaum) (Abst.), 396
- Polyneuritis after nitrofurantoin (Furadantin) therapy (Roelsen) (Abst.), 546
- Polyneuropathy, peripheral, caused by nitrofurantoin (Rubenstein) (Abst.), 547

- Porphyria cutanea tarda associated with chronic granulocytic leukemia treated with busulfan (Myleran) (Kyle and Dameshek) (Abst.), 672
- Potassium diuresis induced by edathamil disodium, clinical precaution (Batchelor, McCall, and Mosher) (Abst.), 547
- thiazide-induced glucose intolerance treated with (Rapoport and Hurd) (Abst.), 543
- Pregnancy, fatal liver disease during, associated with tetracycline therapy (Horwitz and Marymont) (Abst.), 673
- Prescription writing, principles and practices (Friend), 411
- Procaine amide, lupuslike syndrome induced by, association with anti-DNA antibody (Colman and Sturgill) (Abst.), 671
- Progress, medical, diseases of, present status (Moser), 107, 393, 540, 667, 788
- Prophylactic methicillin and oxacillin in prevention of staphylococcal colonization and subsequent clinical infection in newborn infants (Shaw, Riley, and Bracken), 492
- Prophylaxis, continuous, against rheumatic fever, penicillin-resistant bacteria in mouths and throats of children receiving (Naiman and Barrow) (Abst.), 543
- Propylthiouracil, hypoprothrombinemia as complication of (Gilbert) (Abst.), 668
- sensitivity, hemorrhagic syndrome due to Dicumarol poisoning masquerading as (Breckenridge and Kellermeyer) (Abst.), 110
- Proteolytic enzymes in clinical medicine (Colman), 598
- Psychological, pharmacological and, effects in man of chronic chlorpromazine administration (Sletten et al.), 575
- Psychopharmacologic agents (Gordon) (B. rev.), 802
- and methodologic considerations, studies with acetylsalicylic acid (Krumholz, Sheppard, and Merlis), 359
- Psychosis and convulsions following withdrawal from ethchlorvynol (Blumenthal and Reinhart) (Abst.), 547
- Purpura, vascular, due to colchicine in patient with gout (Sinaly) (Abst.), 107
- Pyrimidines, inhibitor of biosynthesis of, de novo, with 5-azaurotic acid (Granat et al.), 436

Q

- Quantitative factors in topical corticosteroid therapy (Scholtz and Nelson), 498

R

- Radioactive iodine, acute leukemia after treatment for hyperthyroidism with (McBride) (Abst.), 672
- Reaction, vasospastic, to methysergide maleate simulating Leriche syndrome (Daniell) (Abst.), 395
- Reactions, hepatic, to tetracycline (Dowling and Lepper) (Abst.), 109
- lepra, thalidomide in treatment (Sheskin), 303
- untoward, to emulsion therapy of pollenosis (Applebaum) (Abst.), 396
- Renal artery stenosis, hypertension and (Sheps et al.), 700
- disease, edema due to, on use of natriuretic drugs in treatment (Kessler) (Edit.), 1
- headache powders and (Fordham and Hufines) (Abst.), 398
- failure, acute, following oral cholecystography (Harrow and Sloane) (Abst.), 670
- Research, drug, advances in (Harper and Simmonds) (B. rev.), 125
- Respiratory depression, narcotic antagonist-induced, antagonism (Telford and Keats), 12
- sensitivity of newborn infant to meperidine and morphine (Way, Costley and Way), 454
- and subjective effects of pentazocine (Bellville and Green), 152
- Rheumatic fever, penicillin-resistant bacteria in mouths and throats of children receiving continuous prophylaxis against (Naiman and Barrow) (Abst.), 543
- Rheumatoid arthritis, clinical trial of indomethacin in (Katz, Pearson, and Kennedy), 25
- Ro5-1025 short-acting monoamine oxidase inhibitor (Feldstein and Freeman), 470

S

- Salicylates, studies of delayed-action medication (Hollister and Kanter), 5
- Salicylazosulfapyridine, hemolytic anemia secondary to (Gardner and Bargan) (Abst.), 669
- Schizophrenic patients, effects of chronic chlorpromazine administration, on systemic arterial pressure in; relationship of body position to blood pressure (Korol et al.), 587
- Sclerosis, severe, progressive systemic, pancreatic collagenase therapy for (Nellas, Crawford, and Scherbel), 367
- Screening methods in pharmacology (Turner) (B. rev.), 685
- Selective toxicity (Albert) (B. rev.), 684
- Serum insulin-like activity in diabetes worsened or precipitated by thiazide diuretics (Samann, Dollery, and Fraser) (Abst.), 398
- Sexual dysfunction associated with thioridazine hydrochloride (Shader) (Abst.), 546
- Short-acting monoamine oxidase inhibitor, Ro5-1025 (Feldstein and Freeman), 470
- Skeletal muscle, cardiac muscle, extracellular fluid and, effects of tris (hydroxymethyl) aminomethane on composition of (Talso and Cutilletta), 448
- Skin test with penicilloyl-polylysine, systemic manifestations after (Ettinger and Kaye) (Abst.), 544
- Sleep, human, electroencephalographic study of effects of meprobamate on (Freemon, Agnew, and Williams), 172
- Small bowel bleeding, intramural, during anticoagulant therapy (Kramer and Hill) (Abst.), 540
- Sodium, body exchangeable, blood volume, and creatinine clearance, fluid retention produced by guanethidine, changes in (Smith) (Abst.), 675
- salicylate, aspirin and, clinical comparison of antipyretic potency (Seed), 354
- thiosulfate, protection studies with, against methyl bis (β -chloroethyl)amine hydrochloride (HN2) and its ethylenimonium derivative (Bonadonna and Karnofsky), 50
- warfarin and phenylbutazone, combined effect of (Eisen) (Abst.), 668
- Spironolactone therapy and gynecomastia (Clark) (Abst.), 789
- Staphylococcal colonization and subsequent clinical infection in newborn infants, prophylactic methicillin and oxacillin in prevention of (Shaw, Riley, and Bracken), 492
- Stenosis, renal artery, hypertension and (Sheps et al.), 700
- Sterilization and disinfection, review (Rubbo and Gardner) (B. rev.), 802
- Steroid therapy, diabetic acidosis secondary to (Blereau and Weingarten) (Abst.), 669
- topical, adrenal function after (March, Rea, and Porter), 43
- Subjective effects of pentazocine, respiratory and (Bellville and Green), 152
- Sulfamethoxydiazine, studies, absorption and excretion (Chew, Kaplan, and Weinstein), 307
- antibacterial activity (Kaplan, Chew, and Weinstein), 316

- Synthetic oxytocin during elective cesarean section, cardiovascular effects of rapid intravenous injection (Andersen et al.), 345
- Systemic arterial pressure in schizophrenic patients, effect of chronic chlorpromazine administration on; relationship of body position to blood pressure (Korol et al.), 587
- manifestations after skin tests with penicilloyl-polylysine (Ettinger and Kaye) (Abst.), 544
- sclerosis, severe, progressive, pancreatic collagenase therapy for (Nellas, Crawford, and Scherbel), 367

T

- Tamponade, anticoagulant-induced hemopericardium with, in absence of myocardial infarction or pericarditis (Fell et al.) (Abst.), 790
- Tannic acid, barium enemas containing, fatal liver damage after (Lucke, Hodge, and Patt) (Abst.), 396
- lethal effects (McAlister et al.) (Abst.), 108
- Teratogenesis (Symposium) (B. rev.), 405
- Tetanus antitoxin (horse), comparison of 500,000 I.U., with 200,000 I.U. in treatment of tetanus (Lucas et al.), 592
- Tetracycline, hepatic reactions to (Dowling and Lepper) (Abst.), 109
- therapy, fatal liver disease during pregnancy associated with (Horwitz and Marymont) (Abst.), 673
- Thalidomide in patients with cancer, clinical experiences with (Grabstaed and Golbey), 298
- (N-phthaloylglutamimide) in treatment of advanced cancer (Olson et al.), 292
- in treatment of lepra reactions (Sheskin), 303
- THAM, passage across peritoneum during dialysis (Nahas et al.), 560
- Therapeutic index, modern drug encyclopedia and (Goodhart and Zeichner) (B. rev.), 406
- Therapy, anticoagulant, intramural small bowel bleeding during (Kramer and Hill) (Abst.), 540
- demethylchlortetracycline, in acute gonococcal urethritis (Sokoloff), 350
- emulsion, of pollenosis, untoward reactions to (Applebaum) (Abst.), 396
- nitrofurantoin (Furadantin), polyneuritis after (Roelsen) (Abst.), 546
- pancreatic collagenase, for severe, progressive systemic sclerosis (Nellas, Crawford, and Scherbel), 367

Therapy—Cont'd

- phenylbutazone, associated with leukemia (Chalmers and McCarthy) (Abst.), 545
- topical corticosteroid, some quantitative factors in (Scholtz and Nelson), 498
- steroid, adrenal function after (March, Rea, and Porter), 43
- tranlycypromine, liver injury associated with (Brandt and Hoffbauer) (Abst.), 397
- Thiazide diuretics, serum insulin-like activity in diabetes worsened or precipitated by (Samann, Dollery, and Fraser) (Abst.), 398
- drugs, antepartum administration of neonatal thrombocytopenia associated with (Rodriguez, Leikin, and Heller) (Abst.), 109
- Thiazide-induced glucose intolerance treated with potassium (Rapoport and Hurd) (Abst.), 543
- Thioridazine blood levels in patients receiving different oral forms (Mellinger, Mellinger, and Smith), 486
- hydrochloride, sexual dysfunction associated with (Shader) (Abst.), 546
- Thiosulfate, sodium, protection studies with, against methyl bis (β -chloroethyl) amine hydrochloride (HN2) and its ethylenimonium derivative (Bonadonna and Karnofsky), 50
- Throats and mouths of children receiving continuous prophylaxis against rheumatic fever, penicillin-resistant bacteria in (Naiman and Barrow) (Abst.), 543
- Thrombocytopenia, neonatal, associated with antepartum administration of thiazide drugs (Rodriguez, Leikin, and Heller) (Abst.), 109
- Thyroid hormones, synthetic, in myxedema, physiologic combinations of (Wool and Selenkow), 710
- Topical corticosteroid therapy, some quantitative factors in (Scholtz and Nelson), 498
- steroid therapy, adrenal function after (March, Rea, and Porter), 43
- Toxicity of arsenic compounds (Buchanan) (B. rev.), 406
- hematologic, of chloramphenicol, controlled double-blind study of (Scott et al.) (Abst.), 789
- intravenous, of local anesthetic agents in man (Foldes et al.), 328
- of mercury and its compounds (Bidstrup) (B. rev.), 406
- Tranquility—at a price (Hollister) (Edit.), 417
- Tranlycypromine, review (Atkinson and Ditman), 631
- therapy, liver injury associated with (Brandt and Hoffbauer) (Abst.), 397

Tris (hydroxymethyl) aminomethane, effects on composition of extracellular fluid, skeletal muscle, and cardiac muscle (Talso and Cutilletta), 448

U

Urethritis, acute gonococcal, demethylchlortetracycline therapy in (Sokoloff), 350

Urinary catecholamines, ethanol and, in man (Anton), 462

Urine, black, after Jectofer injections (Boyle et al.) (Abst.), 394

V

Vascular purpura due to colchicine in patients with gout (Sinaly) (Abst.), 107

Vasoconstrictor agent, new anti-inflammatory, termination of migraine headache by (Sicuteri, Michelacci, and Anselmi), 336

Vasospastic reaction to methysergide maleate simulating Leriche syndrome (Daniell) (Abst.), 395

Vitamin B₁₂, malabsorption and deficiency of, caused by treatment with para-aminosalicylic acid (Heinivaara and Palva) (Abst.), 789

W

Warfarin, sodium, and phenylbutazone, combined effect of (Eisen) (Abst.), 668
